Health Care Evaluation and Analysis Autonomous System

AI-Assisted Medical Evaluation Report

Report ID: 39B27DAD12Report Date: 12/09/2026

Report Type: TYPHOID EvaluationModel Version: v1.0

1. Patient Information

Patient Name	Ashish Gupta	Patient ID	1
Age	17	Sex	Male
Contact	Not provided	Evaluation Date	12/09/2026 06:57
Address	ADDRESS		

2. TYPHOID Evaluation Inputs

Parameter	Patient Input	Unit / Type
Model input 1	17.0	Unavailable
Model input 2	3.0	Unavailable
Model input 3	4500.0	Unavailable
Model input 4	146000.0	Unavailable
Model input 5	1	Unavailable
Model input 6	1	Unavailable

3. Disease Analysis

TYPHOID

AI PREDICTION: NO

Model Confidence: 51.00%

4. Result Interpretation

YES	The model predicts the condition based on supplied input data. This is not a confirmed diagnosis.
NO	The model does not predict the condition from supplied input data. A negative prediction does not rule out illness.

5. Precautions & Recommendations

- Consult a qualified healthcare professional if the AI prediction is YES.
- Maintain adequate hydration and rest.
- Follow food and hygiene practices recommended by a healthcare professional.
- Do not start antibiotics or other prescription medicines solely from this report.

Typhoid evaluation should be confirmed using appropriate clinical assessment and diagnostic testing.

6. AI Model Information

System	HEAL-AS
Evaluation Method	Machine-learning based screening / prediction
Input	Patient-provided clinical and laboratory information
Output	Disease prediction: YES / NO
Model Version	v1.0

7. Medical Disclaimer

Important: HEAL-AS is an AI-assisted health evaluation system. Results are for informational and screening purposes only and are not a confirmed medical diagnosis. A qualified healthcare professional should consider symptoms, history, examination, and appropriate diagnostic tests. If the prediction is **YES**, please visit a qualified doctor for further evaluation. Do not start, stop, or change medication solely on the basis of this report.
